# Bogus caller button

Are you worried about unknown callers to your home?

We can help.

Bogus callers are thieves who steal from vulnerable people by conning their way into their homes. Research commissioned by the British Gas Help the Aged Partnership estimates that about 300,000 people were targeted by bogus callers last year.

A bogus caller button can be fitted next to your front door so that you have discreet access to help should you become worried or afraid of an unknown caller at your door.

The trigger is similar to a pendant and comes complete with a wall mounting bracket. When pressed it sends a wireless signal to the Lifeline unit and the appropriate help can be sent.

The alarm call is silent so the call centre can listen to the situation and intervene if necessary.

## How do I find out more?
