

Housing tenure policy

1. Purpose and scope

This policy outlines our approach to the offer of different forms of housing tenure which are compatible with the purpose of the accommodation, the needs of individual households, the sustainability of the community and the efficient use of our housing stock.

2. Underpinning principles

We must comply with the Regulator of Social Housing Tenancy Standard 2024, and all applicable statutory and legal requirements in relation to the form and use of contractual agreements.

3. Policy details

Policy Principles

Customers will be given a written contract for the occupation of their home which will contain their statutory, regulatory and contractual rights.

The type of tenure and contractual agreement offered will be suitable for the purpose of the accommodation, the needs of the individual household, the efficient use of our housing stock and the sustainability of the community, but will not include the use of fixed term tenancies.

Where a customer wishes to move to another home we will grant them a tenancy with no less security than that which they currently enjoy, and the agreement issued will be in the most current form for the tenure concerned.

Customers moved into alternative accommodation during any redevelopment or other works will be granted a tenancy with no less security of tenure on their return to their settled accommodation.

Where a customer is forced to move permanently for whatever reason, they must be granted a tenancy of the type they currently have and at the same category of rent (e.g. social rent to social rent).

Our assignment and mutual exchange policy, assignment procedure, mutual exchange procedure, succession policy and succession procedure

Housing tenure policy

detail the types of tenancy agreement that will be used in a variety of circumstances.

We will be clear and transparent when offering different forms of tenure and contractual agreement to customers, and will offer them a right of appeal against the type of tenure and contract issued.

Use of tenure and contractual agreements

We have several different forms of tenure and contractual agreements which are used in a variety of circumstances and these are listed below.

Starter Tenancy Agreement

An assured shorthold tenancy let on either a social rent or an affordable rent that converts to an assured tenancy after 12 months (18 months in some cases), issued to all new customers in general needs accommodation, sheltered accommodation and some supported housing.

Assured Tenancy

A starter tenancy that has converted to an assured tenancy, or a tenancy which existed prior to the introduction of starter tenancies.

Assured Shorthold Tenancy

A tenancy used for some supported accommodation (move on).

Assured Shorthold Tenancy Agreement (Intermediate Rent)

A tenancy let at 80% gross market rent where 1 month's deposit is also required, issued to people in employment who want to save to buy the property. These are converted to an assured tenancy at an affordable rent when they are relet.

Assured Shorthold Tenancy (Trust for Minor) [also known as an Equitable Tenancy]

A tenancy agreement used for lettings where the person is under 18 years of age. Once the person reaches the age of 18, the tenancy passes to them on completion of a vesting deed at which time the tenancy will be treated as a starter tenancy.

Assured Shorthold Tenancy Agreement (Rent to Homebuy)

A tenancy let at 80% gross market rent where 1 month's deposit is required. A government scheme (now closed) that allowed people to

Housing tenure policy

buy a share of their home within the first 5 years. These agreements are still issued when the property is relet.

Assured Shorthold Tenancy Agreement (Mortgage Rescue)

A tenancy let at 80% gross market rent for an initial fixed term of 3 years. A government scheme (now closed) that allowed social landlords to purchase properties and then relet them to the existing owner. We currently have 2 properties which have this tenancy type.

Assured Shorthold Tenancy (Market Rent)

A tenancy to be used for properties let at a market rent where a deposit of one month's rent is also required.

Shared Ownership Lease

A 990-year lease (some older leases are either 99 years or 125 years) where a percentage of the property is sold to the applicant. The shared owner can increase their equity share at a later date (known as staircasing).

Standard Lease

A 125-year lease of a flat.

Licence

A contractual agreement used for accommodation in some supported housing schemes. It is also used for 4 properties in Warminster which are let as temporary accommodation to homeless households on behalf of Wiltshire Council.

Agreement for Temporary Accommodation during works

A contractual agreement issued to customers occupying a property temporarily whilst works are carried out to their home.

Additional Clauses

We may insert additional clauses into agreements where a person is allowed to occupy a property which would not normally be offered to them, for example:

- a specially adapted dwelling
- for training, education or life skills purposes

Housing tenure policy

- to ensure engagement with support agencies
- to ensure recovery of former tenant arrears.
